## 著者別索引について

ここでいう著者は、著者・編者だけでなく画家なども含む広い意味での著者である。各著者について、米議会図書館 (Library of Congress) の著者名典拠データベースにレコードがあるものについては、それに従い、ないものについては「日本古典籍総合目録」データベース、「国書総目録」などを参考に、著者名を決定した。名前にバリエーションのあるものなどは、「SEE...」参照をつけた。(例：一立斎廣重, 1797-1858 SEE 安藤 廣重, 1797-1858.)

各著者名は漢字名をローマ字化したもの (例、古山 師重、Furuyama, Moroshige) のアルファベット順に配列した。各著者名内はコールナンバー順に配列した。

注：各著者名は漢字名とローマ字化したものから成るが、それぞれに同じコールナンバー順のリストが付けてある。

### Note:

LC call number search in CLIO (Columbia University Libraries' online public access catalog), use only up to the first Cutter number

e.g. call number: BJ971.B8H67 1853 ; search by BJ971.B8

If you use entire call number, in this example, BJ971.B8H67 1853, result is “no hit.” On the other hand, search by up to the first Cutter number, BJ971.B8, a number of results will be found. Then select the exact match.

LC call numbers, most of the time, include publication years. However, when the Okuda catalog indicates “publication year unknown (刊年未詳)”, call number does not indicate the year, although the call number in CLIO may have publication year as a part of call number. These publication years must have obtained from outside of the item itself such as reference tools.

Each author name consisting of its local language and its Romanization (for example、古山 師重、Furuyama, Moroshige) is arranged by alphabetical order of the last name, then alphabetical order of the first nam.
