書名索引について

本目録に収録されている著作物は、絵本・俳画なども含み、範囲が広いが、それぞれのタイトルを便宜上「書名」と呼び、その検索のために編集したのが本索引である。

書名のないものについては、「日本古典籍総合目録」データベース、「国書総目録」などを参考にして書名を決定した。一点について複数の書名があるものについては、本目録に表示された各書名を採録した。

注：各書名は漢字名とローマ字化したものから成るが、それぞれに同じコールナンバー順のリストがつけてある。

On the Title Index

The works incorporated into this catalog are extensive in scope, including such as illustrated books and *haikai* drawings; for searching convenience each title compiled in this index is treated as a book title.

If there is no title indicated on an item, its title is decided in consultation with reference tools such as *Union Catalogue of Early Japanese Books (Nihon Kotenseki Sogō Mokuroku)* database (<http://base1.nijl.ac.jp/~tkoten/about.html>) and *Kokusho Sōmokuoku* (published by Iwanami Shoten). If an item has more than one title, the title appearing in this catalog is the one selected for indexing.

Note: Each title consists of the title in Japanese and its Romanization; the same call number is indicated for both of them.
